

Problem Solving - Discover the prodigy within you!!

Problems are a part and parcel of daily life. These obstacles turn to be opportunities in disguise only if we confront them with confidence. Here we guide you to, put your finger on the root of the problem, understand it and provide you with tacks and hacks to solve it. This problem solving ability is sure to be a stepping stone to your success in both personal and professional life.

C or Python concepts - Check out the seeds of e-era!!

C and Python are foundations for a programmer as they form the basis for all programming languages. We lay the basement for building your career in this e- environment by introducing you to the concepts in **either C or Python**. Students will have an option to choose among the two and training will be given accordingly.

GET READY FOR ENGINEERING 2017

Kamaraj College of Engineering and Technology -
Transforming Young Lads into Efficient Engineers.

We carve innocent learners to unique innovators in Engineering. Our motive is to mould our students into eminent engineers who come up with ideas to improve the quality of life. We also encourage our students to explore their creative side and pursue their passion.

“Get ready for engineering 2017” is a program organized to develop the 12th standard students for helping them ascend the ladder of success. This program will help the students develop knowledge and skills in a multidimensional fashion. Being part of this program will help you to equip yourselves with the skills that are required for being an engineer.

The following are the different sessions in this program

Problem Solving	- 6 Hours.
C or Python concepts	- 10 hours
Online Programming Platform to implement C and Python Concepts	- 30 hours
Puzzles	- 12 hours
Public Speaking	- 12 hours
Fun	- 20 hours

Total Number of Hours -90 hours

Fun Training - We take your fun seriously!!

We have always appreciated that all work and no play makes Jack a dull boy. So along with all other sessions we have set up exclusive fun sessions that will help you to chill out and boost your energy level. The following are the recreational activities that are planned:

- Indoor Shuttle Badminton
- Group games
- Outdoor sports
- Animation movies Screening

Other details of the program

- Transport will be provided from Virudhunagar.
- Delicious lunch and tea will be provided
- Registration for this program is based on "First come First Serve"
- Cost of the program is Rs.3000/-

Public Speaking – Walk in as a talker, go out as a speaker!!

There is an ocean of difference between one who talks and one who speaks. Talk is just an idle chat while speak is with intent and clear content. Everybody has to speak in public from time to time either to deliver an idea, convey a message or discuss with a team. Effective public speaking opens up countless opportunities. So we assist you in learning the art of communication, concentrating on the following key features:

- How to get rid of stage fear?
- How to prepare a speech?
- How to deliver a Speech effectively?

Career Guidance – Your passion, our vision!!

As mentioned already we provide opportunities to pursue a career in Engineering/Technology stream as well as other streams of your interest. We assist you in chasing your dreams and provide you with guidance to make a happy living for the next forty years of your life.

Cloud Coder- Enriched ground for your enhancement!!

This is a platform that chisels the programmer in you. Equally beneficial for both the beginners and the flyers cloud coder makes you an excellent programmer. This incremental programming environment will enhance your programming skill .

Puzzles - Teasers for your brain!!

This is an exciting session to set fire to the cerebrum of your brain. This brain storming activity helps in boosting your analytical thinking and logical reasoning.
