ABOUT THE COLLEGE:

Kamaraj College of Engineering and Technology was started in the year 1998 and is the outcome of cherished desire and dream of the people of virudhunagar. It is rightly named after the son of this soil, Bharat Ratna Sri. K.Kamaraj who was the undisputed leader of the suppressed and downtrodden and a champion of free education for the masses. The College focuses in taking the institution to a higher level by having continued interaction with industries, research organization and universities in abroad. Our college is establishing an exclusive 'Centre of Excellence named as "KAMARAJ Centre of Excellence" to promote the developments in par with the international education by building the capacity of individuals with a training for future Entrepreneurs, Innovators, Scientists and Engineers.

ABOUT THE DEPARTMENT

The Department of Electronics and Instrumentation Engineering has been providing full time B.E degree course in Electronics and Instrumentation Engineering. This field of Engineering includes the knowledge in the areas of Electronics, Instrumentation, Control Systems, Process Control, VLSI Design, Automation, PLC, DCS, SCADA, Embedded Systems, Microcontrollers and Biomedical Instrumentation. The Department has all facilities with well-equipped laboratories, library and has qualified and dedicated teaching professionals.

DEPARTMENT VISION

To make the Department of Electronics and Instrumentation Engineering of this institution a unique of its kind in the field of research and development activities in this part of world.

DEPARTMENT MISSION

To impart highly innovative and technical knowledge in the field of Electronics and Instrumentation Engineering to the urban and unreachable rural students folks through Total Quality Education

PROGRAMME OBJECTIVES

The objective of the programme is to sharpen the knowledge of the participants in the area of basic electrical and electronic circuits and measurements systems in the various fields of applications.

COURSE OUTCOME:

Participants will be

- Understand the concept of basic Electrical and Electronic circuit design
- Able to Apply the Knowledge in Electrical and Electronics related field work

ABOUT THE PROGRAMME:

Day 1: Concepts of Basic Electric Circuits and Electrical machines & its Application

Day2: Utilization of Electrical power, tariff calculation and Electronic circuit design

Day 3: Simple Home appliances & Electrical measurements system -Theory and design.
